

ALPHA PHI ALPHA FRATERNITY, INC.
CANDIDATE COVID-19 PANDEMIC IMDP WAIVER – Attachment EE

Candidate Name, Aspiring Chapter and ID Number (Print):

Nazhir Carter Rho Nu Lambda 2847040

I, Nazhir Carter (Print name), knowingly and willingly consent to participate in the Initial Membership Development Process (IMDP) of Alpha Phi Alpha Fraternity, Inc. during the COVID-19 pandemic.

Health Protocols for IMDP

This document provides information we ask you to acknowledge and understand regarding the COVID-19 virus. The COVID-19 virus is a serious and highly contagious disease. The World Health Organization has classified it as a pandemic. You could contract COVID-19 from a variety of sources. Alpha Phi Alpha Fraternity, Inc. wants to ensure you are aware of the additional risks of contracting COVID-19 during IMDP.

The COVID-19 virus has a long incubation period during which carriers of the virus may not show symptoms and still be highly contagious. It is impossible to determine who has it and who does not given the current limitations in virus testing. Consistent with the actions recommended by the CDC and many City and State Officials everyone should wear a cloth face cover (over the nose and mouth) in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain. Individuals must wear non-medical grade face masks or multi-layer cloth masks during the IMDP.

Limiting face-to-face contact with others is the best way to reduce the spread of COVID-19. Social distancing, also called "physical distancing," means keeping at least 6 feet (about 2 arms' length) between yourself and other people outside of your home. Other measures such as hand-washing hygiene, coughing and sneezing etiquette, cleaning and disinfecting frequently touched surfaces daily, and monitoring your health daily should also be followed.

I understand that the CDC and many City and State Officials recommend social distancing of at least 6 feet and that this may not be possible during certain portions of IMDP.
